“We use Adam @ Perceptage for all of our safety and security matters. Adam’s experience and expertise are invaluable to us. It is very important to maintain a safe and secure environment especially when working with young children and their families. With Adam’s help, guidance and non-alarming attitude, we are confident that our premises are safe and secure. Just this year Adam began sending out a regular newsletter which has proven to be informative and always interesting. Adam is a rock star when he enters our daycare... his presence is always welcome. Even though Adam travels around the world advising companies and people of all different types of backgrounds, he always makes time for smaller organizations like ours.”
