Dear Adam,

On behalf on the Board of Directors, staff and children of CPE Lachine, I want to thank you for the excellent work that you did here at the center to help us better protect our environment for all.

The training that you presented was informative, captivating and provided us with a new reality of how we are our own best advocates for our safety.

Your hands-on examples and scenarios were so important for us to experience real situations and to see that we are not powerless to protect ourselves and the children in our care.

With your guidance and recommendations, we feel safer and more secure in our daily environment.

Thank you again for your support and we look forward to continue working with you in the future.

Sincerely,

Lorraine Montpetit  
Executive Director
