Good day Deborah and Moshe:

Just a short note before Shabbat to thank you for providing assistance to our shul and schools on the issue of security.

Adam has been very helpful since he assumed his position at Federation, but particularly since the fairly widespread panic immediately following the Sandy Hook catastrophe. He has provided essential expertise and has been attentive, responsive and exceptionally professional. He was instrumental in helping us understand and get our heads around the need for lock down procedures, equipment and protocols and for guiding us in their implementation. He drilled us and grilled us and everyone, from our 2 year olds to our highest ranking clergy members appreciated his style and expertise.

Today Rabah and Shabbat Shalom,

Penni Kolb
Executive Director
