Adam,

I want to thank you for the excellent security audit that you recently performed at our Aquatics and Community Centre. Your attention to detail came through in spades and the report submitted was well organized, detailed and will allow us to implement many of your recommendations in an on-going effort to augment the safety and security of our facility.

I look forward to continuing to work with you in the future, both on the implementation of your recommendations for this site and on other projects.

Jordy Reichson
Director of Public Safety
